# BCVA Masterclass: Cow Comfort and Housing Assessment and Design

**13th & 27th February 2025**

A 2 part online CPD workshop

**Day One:** 13th February 13:00 – 18:00.

**Day Two:** 27th February 13:00 – 18:00.

Limited to a maximum of 10 delegates, this online course will focus on cow comfort and building design. Using a facilitated and interactive workshop format participants will learn about how to maximise cow comfort and to both assess and design adult dairy cow housing across a range of systems. There will also be a focus on the importance of ventilation and how this can be optimised.

The course will be split over two afternoon sessions and there will be an assignment after the first session to help consolidate the information and ideas discussed during the workshop.

BCVA Masterclass CPD is aimed at experienced clinicians wishing to gain greater insights from class-leading research which can be applied on farm and in their work. Previous Masterclasses have proved very popular, so early booking is advised.
